the time you have used five or six doz, you will begin to galn strength and have an appetite. Of course as you get better you need not use as mary. Follow these directions and we know that you will never regret it if there is any heip for you. We know of two cases where both of the patients were given up hy the physicians, and were in the last stages of consumption, yet hoth rere, cured by using lemons accordiug to the directions we have stated. One lady in purticular was bedidden and very low; had tried everything that money could procure, but nli iu vain, when, to piease a friend, she was finally persunded to ise leuions. She began to use them in February, and in April she weighed 140 pounds. She is a well woman to-dny, and likely to live as iong as any of us.

BENEFITS OF GO-OPERATION.

Kentucky Sunday School Association Influence Can Be Extended Through the Efficient Aid of Public School

The educational wave is rising in our old state. For a long time each and every organization that was help ing the movement has been working independently. Now there is a desire to get together. The following report of a special committee on the work of the Sunday school association and that of the Louisville Commercial cinb, will explain itself.

The Kentucky Sunday School ass ciation has a splendid organization Every county has some form of or nation. Many of the people who are interested in all the best interests 3's and 25 failures. of the county are numbered amo those wito are connected with this as day school, the public school and the ne could do for the entire commu nity, reaching into the physical, men-

tal, social and apiritual development. Not only the city pastors, but the rural pastors, who are in a measure leaders in the communities, are con-nected with the Sunday School seso-clation, and in many cases the public ducational work.

The Commercial club is reaching through its wide system of publicity, the prises it has been offering, and the correspondence conducted, many who are interested in truest education but whose viewpoint is different from Freeliu Lambert.

Therefore we suggest: First.-That in the future on all progious education in the state along definite lines and that this topic be as A thousand persons on board two In such way there might be the opof people who have never thought on injured. this would be the surest way of arous . lauds. ing enthusiasm, disseminating informa tion and removing prejudice.

Second.-That in the future at all. tional forces along definite lines.

Fourth.-That at the state conventure of the program and if possible a department session be given it.

The Truent Law.

When this law is so openly set at aught as to bring a particular case to the attention of the public it is time that a halt was called and the malefactor made to suffer for his shortschool is a moral duty, and when this inty is neglected by those whose duty it is to observe it is the whose duty it is to observe it is the duty of the authorities to step in and take a hand. We want to say that if the county superintendent's attention in called to nome flagrant violation and she is compelled to act the strong arm of the law will fall in un gentle manner upon the shoulders of the malefactor. Better send the kiddles to school, which is your duty, and where they belong and thereby fulfill your moral obligation as well as avoid a conflict with the school authorities.—Central Record.
